## PROFILE SUMMARY

I am a skilled Web Developer proficient in React, Next.js, Express, and TypeScript. Experienced in creating responsive, user-friendly applications with a focus on clean code and effective problem-solving. Seeking opportunities to contribute my expertise in a dynamic development role.

## EDUCATION

- 2019 - 2023  
BULACAN POLYTECHNIC COLEGGE MAIN CAMPUS
- Bachelor of Science in Information System
- 2011 - 2017  
CALUMPIT CALUMPANG NATIONAL HIGH SCHOOL
- From high school to senior high school education.

## WORK EXPERIENCE

- Spedi construction inc** OCT 2022 - JAN 2023
- Web developer OJT
- As an OJT, I contributed to improving an existing warehouse inventory system. The technologies I worked with include Laravel, MySQL, React, Redux, and React Bootstrap.
- Lloyds laboratories inc** FEB 2024 - SEPT 2024
- Jr. Programmer
- I inherited an HR system that is undergoing migration from VB.NET to a React and Express tech stack. My job mainly involves migrating features to the new stack. I have also added features such as real-time notifications. The technologies I work with in this company include Express, Socket.IO, SQL Server, React, Ant Design, and Redux.
- Bluewolf solution** JAN 2025 - AUG 2025
- Jr. Web Developer
- I built three WordPress websites. I also developed a custom construction project management system with payroll features from scratch using Laravel and React. Additionally, I maintained a PHP-based pharmacy system, mainly focusing on fixing bugs. The technologies I worked with in this company include WordPress, PHP, Laravel, MySQL, React, and Tailwind.
